## Skills

- HTML
- CSS
- JavaScript
- Basic python
- Basic DBMS

## Projects

- Music Player Web Application**  
Technologies: HTML, CSS, JavaScript

Developed a web-based music player application with interactive user interface using HTML, CSS, and JavaScript.

Implemented core features such as play, pause, next, previous, volume control, and progress bar functionality.

Used JavaScript DOM manipulation to dynamically control audio playback and update UI elements in real time.

Designed a responsive layout to ensure smooth user experience across desktop and mobile devices.

Improved frontend development skills by handling media elements and user interactions efficiently.
